

19 LITRE MINERAL WATER FILLING PLANT

- Automatic Grade: Automatic
- Filling Valve Head: Multi-Head
- Dosing Device: Surface Type
- Lifting Structure: Pneumatic Lifting
- Packaging: Bottle
- Material: Stainless Steel 304
- Trademark: Accurate
- Specification: ISO9001-2000

Introduction

Bottled water is one of the biggest selling beverages in the world due to its convenience and quality taste. Whether due to the uneasiness of the safety of tap water or the convenience of the bottle, bottled water continues to gain profit share for companies in the industry. Specifically for busy college students such as ourselves, it has become increasingly important for us to be able to drink water when not near a water source.
