

FRESH & FLAVORED MILK BOTTLING PROCESSING MACHINES

Stainless Steel Tanks (For Storage / Blending / Dispensing)

Suitable to collect, store, dispense and blend products like pulp, juice, beverages, sugar syrup, dairy products and pharmaceutical liquids. These tanks can be fitted with stirrer or blending device, manhole, temperature indicator, liquid level indicator and CIP spraying head.

These tanks can be fabricated in SS 304, SS 316 or SS 316 C in single, double or triple layer with or without steam jacket insulation. The tanks are welded with smooth inner walls and are finished up to 150 grit finish and hydraulic tested.

Available in capacities from 100 litre to 30 KL.

SS Sanitary Pipeline/fittings

Required for interconnecting various machines/pumps/tanks for transfer of liquids like pulp/juices/concentrates.

Available in sanitary design, easy to clean and options of SS 304/316L.

Centrifugal Pumps

Suitable to transfer easy free flowing liquids of low viscosity.

Available in capacities from 1 to 10 MT/hr.

Positive Displacement Screw Pumps

These pumps are generally used for pumping low to medium viscous liquids.

Available in capacities from 1 to 10 MT/hr.

Rotary Lobe Pumps

Suitable for pumping viscous liquids with suspended solids/powder or high viscosity product.

Available in capacities from 1 to 10 MT/hr.
